

Dear Surveyor,

I have registered for the American Association of Nurse Assessment Coordinator's 2009 National Spring conference on March 5-6, 2009. It will be in Kansas City, Missouri. AANAC is a non-profit professional organization dedicated to supporting clinicians who are involved in the Resident Assessment Instrument/Minimum Data Set (RAI/MDS) process by providing accurate and timely information on:

- ◆ Clinical Assessment, the RAPs and Careplanning
- ◆ Regulatory Requirements
- ◆ Reimbursement
- ◆ Quality Indicators and Quality Measures
- ◆ Automation and Transmission of the MDS

At this premier event for professionals involved with the RAI/MDS process I will see dynamic keynote speakers, learn about the most current and targeted topics on resident care, reimbursement, and regulatory oversight. I will be able to improve our facility operations with practical/hands-on ideas and advice that I will receive from experts in the field at the AANAC conference. I request that you keep this important event in mind when scheduling our survey.

Sincerest Regards,
